Guitar Tablature Explained

Guitar music can be notated three different ways: on a musical stave, in tablature, and in rhythm slashes

RHYTHM SLASHES are written above the stave. Strum chords in the rhythm indicated. Round noteheads indicate single notes.

THE MUSICAL STAVE shows pitches and rhythms and is divided by lines into bars. Pitches are named after the first seven letters of the alphabet.

TABLATURE graphically represents the guitar fingerboard. Each horizontal line represents a string, and each number represents a fret.

definitions for special guitar notation

SEMI-TONE BEND: Strike the note and bend up a semi-tone (1/2 step).

WHOLE-TONE BEND: Strike the note and bend up a whole-tone (whole step).

GRACE NOTE BEND: Strike the note and bend as indicated. Play the first note as quickly as possible.

QUARTER-TONE BEND: Strike the note and bend up a 1/4 step.

BEND & RELEASE: Strike the note and bend up as indicated, then release back to the original note.

COMPOUND BEND & RELEASE: Strike the note and bend up and down in the rhythm indicated.

PRE-BEND: Bend the note as indicated, then strike it.

PRE-BEND & RELEASE: Bend the note as indicated. Strike it and release the note back to the original pitch.

UNISON BEND: Strike the two notes simultaneously and bend the lower note up to the pitch of the higher.

BEND & RESTRIKE: Strike the note and bend as indicated then restrike the string where the symbol occurs.

BEND, HOLD AND RELEASE: Same as bend and release but hold the bend for the duration of the tie.

BEND AND TAP: Bend the note as indicated and tap the higher fret while still holding the bend.

VIBRATO: The string is vibrated by rapidly bending and releasing the note with the fretting hand.

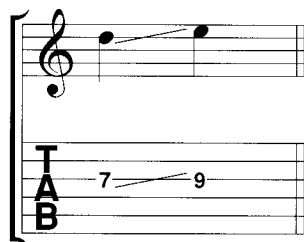

HAMMER-ON: Strike the first (lower) note with one finger, then sound the higher note (on the same string) with another finger by fretting it without picking.

PULL-OFF: Place both fingers on the notes to be sounded. Strike the first note and without picking, pull the finger off to sound the second (lower) note.

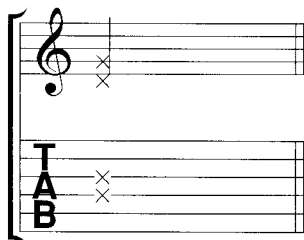

LEGATO SLIDE (GLISS): Strike the first note and then slide the same fret-hand finger up or down to the second note. The second note is not struck.

NOTE: The speed of any bend is indicated by the music notation and tempo.

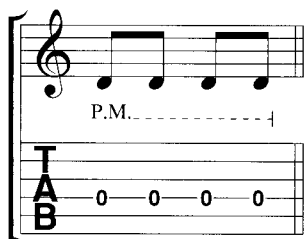

SHIFT SLIDE (GLISS & RESTRIKE): Same as legato slide, except the second note is struck.

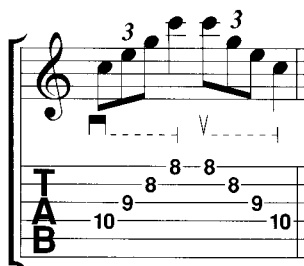

MUFFLED STRINGS: A percussive sound is produced by laying the fret hand across the string(s) without depressing, and striking them with the pick hand.

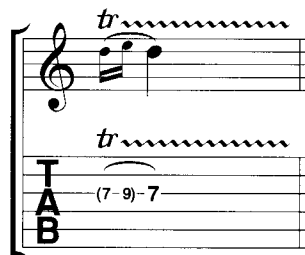

PALM MUTING: The note is partially muted by the pick hand lightly touching the string(s) just before the bridge.

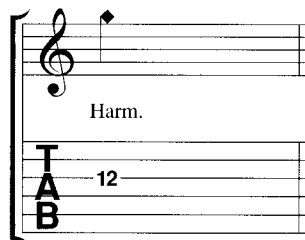

SWEEP PICKING: Rhythmic downstroke and/or upstroke motion across the strings.

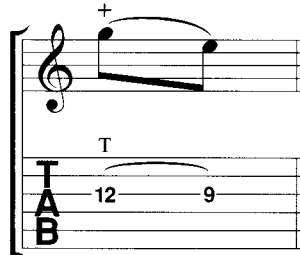

TRILL: Very rapidly alternate between the notes indicated by continuously hammering on and pulling off.

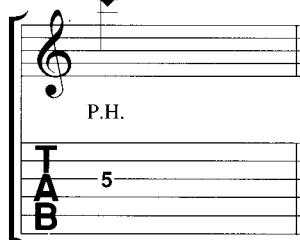

NATURAL HARMONIC: Strike the note while the fret-hand lightly touches the string directly over the fret indicated.

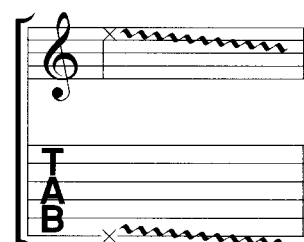

TAPPING: Hammer ("tap") the fret indicated with the pick-hand index or middle finger and pull off to the note fretted by the fret hand.

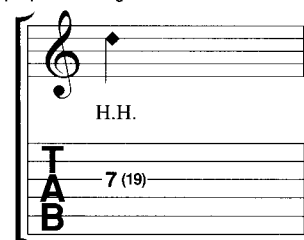

PINCH HARMONIC: The note is fretted normally and a harmonic is produced by adding the edge of the thumb or the tip of the index finger of the pick hand to the normal pick attack.

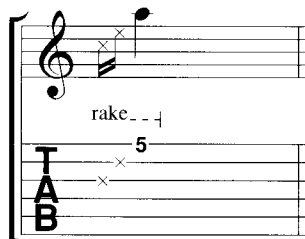

PICK SCRAPE: The edge of the pick is rubbed down (or up) the string, producing a scratchy sound.

HARP HARMONIC: The note is fretted normally and a harmonic is produced by gently resting the pick hand's index finger directly above the indicated fret (in parentheses) while the pick hand's thumb or pick assists by plucking the appropriate string.

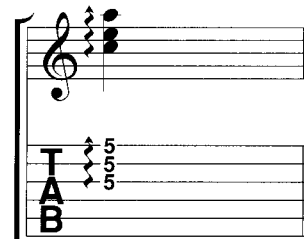

RAKE: Drag the pick across the strings indicated with a single motion.

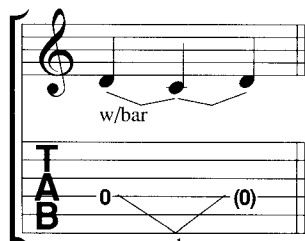

TREMOLO PICKING: The note is picked as rapidly and continuously as possible.

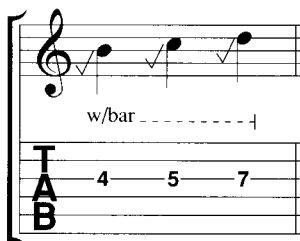

ARPEGGIATE: Play the notes of the chord indicated by quickly rolling them from bottom to top.

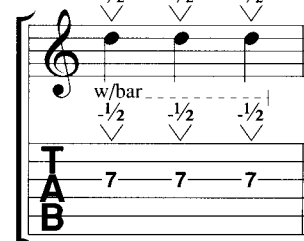

VIBRATO DIVE BAR AND RETURN: The pitch of the note or chord is dropped a specific number of steps (in rhythm) then returned to the original pitch.

VIBRATO BAR SCOOP: Depress the bar just before striking the note, then quickly release the bar.

VIBRATO BAR DIP: Strike the note and then immediately drop a specific number of steps, then release back to the original pitch.

additional musical definitions

(accent)

- Accentuate note (play it louder).

(accent)

- Accentuate note with great intensity.

(staccato)

- Shorten time value of note.

- Downstroke

- Upstroke

NOTE: Tablature numbers in parentheses mean:

1. The note is sustained, but a new articulation (such as hammer on or slide) begins.
2. A note may be fretted but not necessarily played.

D.%. al Coda

D.C. al Fine

tacet

- Go back to the sign (§), then play until the bar marked *To Coda* ⊕ then skip to the section marked ⊕ *Coda*.

- Go back to the beginning of the song and play until the bar marked *Fine* (end).

- Instrument is silent (drops out).

- Repeat bars between signs.

- When a repeated section has different endings, play the first ending only the first time and the second ending only the second time.

'Seek And Destroy' is from Metallica's first album *Kill 'Em All* (1983); a hugely influential thrash metal album.

With its incessant, pounding riffs and anthem-like chorus this track is guaranteed to drive a live audience to a frenzy! Remember, although the tempo is fast ($\text{♩}=140$), it's important to keep the riffs under control and played evenly.

TRACK 1

N.C. *Play 8 times*

P.M. P.M. P.M. P.M.

Picking technique plays a large part in achieving Metallica's aggressive sound. Try to use downstrokes as much as possible when playing the palm muted riffs to emphasise the punchy attack of the notes. This first riff is made up of alternating palm-muted and open phrases and the key to making it work is to contrast the two. Keep the palm-muted notes short and percussive. Use as much of your

palm as you can to cover the string at the bridge without completely damping it.

The guitar sound is classic Metallica, big and fat, using the bridge pickup with plenty of distortion. If you have a graphic EQ or midrange control on your amp or distortion pedal, boost the low end and turn down the mid range.

TRACK 2

E5 G5 A5 G5 A5 E5

P.M. P.M.

Concentrate on downstrokes for this riff and play the muted riffs with plenty of attack. The double-stops in bar one can be played by alternately using a first

finger barre, for the G5 chord, and the third and fourth fingers for A5.

This verse riff uses elements of Riffs 1 and 2. The bottom E palm muting should be short and percussive, as in Riff 2, with the last two notes open for contrast. Use heavy downstrokes for the palm-muted notes and alternate picking for the rest.

These double stops can be played using the same fingering as for those in Riff 2, with the first finger barring the D and G strings. Go for heavy accents on the un-muted chords, especially the first chord of each bar. The two descending licks both use the same fingering – start with the third finger and use the blues scale shape.

Chord progression: G5*, F#5, F5, E5*, E

Tab notation: 12 10, 11 9, 10 8, 9 7, 9 9 9 7

Here are two versions of the chorus riff. Riff 5b is a shorter version of 5a used in the coda section just before the tempo change.

Tempo: *sim.* (Sustained)

P.M. (Palm Mute) indicated for the final measure.

Because the tempo used for this riff is so fast, don't attempt to play it all with downstrokes – it's much easier to use alternate picking. The double stops can be played with a first finger barre, as for Riffs 2 and 4. Using heavy accents for the un-muted notes will create an interesting rhythmic feel.

Riff 5c is very similar to 5a but is played at a faster tempo during the guitar solo. Use alternate picking as for riff 6a.

Riff 7

TRACK 11

You can use downstrokes for all of this riff to get the maximum attack on the notes or, alternatively, play

the muted notes as downstrokes and use alternate strokes for the chords.

Riff 8

TRACK 12

Keep the muted notes very short and percussive and accent the non-muted chords. This will emphasise the syncopated feel of this riff.

Watch out for the 5/4 bar which is played on the fourth repeat and leads into the final riff.

This is a repeat of part of the first riff in the song. Keep the same fingering as for Riff 1. Use alternate picking for the first three bars but switch to downstrokes for the last bar to add extra punch.

"We do play very fast, but I think there's a lot more to our songs than just thrashing. We try and arrange and structure them with good breaks, tempo changes and choruses with melody lines."
Lars Ulrich

SEEK AND DESTROY

Lyrics

Intro: 41 bars

Instr: 8 bars

Verse 1: **N.C.**
 We are scanning the scene
 In the city tonight
 We are looking for you
 To start up the fight
 There is an evil feeling
 In our brains
 But it is nothing new
 You know it drives us insane.

Verse 2: **N.C.**
 There is no escape

The first single from the 1984 album *Ride The Lightning*, 'Creeping Death' soon became a vital element in Metallica's live shows and has been described as the ultimate expression of the Thrash genre.

With a tempo of 204 b.p.m. the pace of this song is truly frenetic, but once again the riffs are carefully controlled and move seamlessly into each other. Once you've conquered these riffs at a comfortable tempo build up speed and revel in the raw energy and power this track draws from the guitar part.

Riff 1

 **TRACK 16**

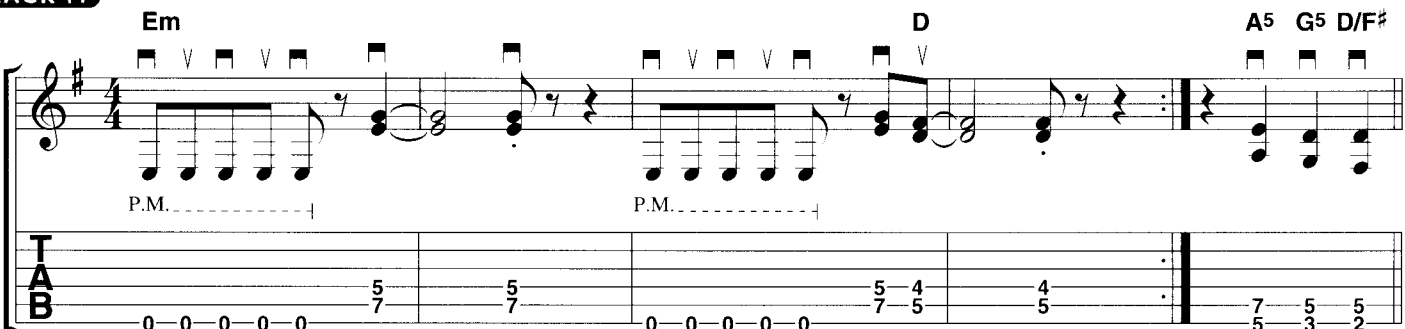

Because this song has a fast tempo, this riff should be played using alternate strokes with heavy accents on each note. Aim for a machine-gun-like regularity.

Use heavy palm-muting to achieve the trademark Metallica rhythm sound with plenty of distortion, using the bridge pickup.

Riff 2

 **TRACK 17**

Treat this riff in the same way as Riff 1; watch the timing of the chords in bars 2 and 4 and try not to rush as you hold the long chords. In the final bar use

the first and fourth fingers to play the A5 and G5 chords, then move the first finger down a fret to play D/F#.

This is the main verse riff. As with Riff 1 the picking is alternate with accents on the un-muted chords. Use a first finger barre on the A and D strings.

The pull-off in bar two is played with the first and second fingers.

TRACK 21

First system of musical notation for Riff 5, measures 1-4. The staff shows a treble clef, key signature of one sharp (F#), and a 4/4 time signature. Chord symbols above the staff are E5*, C5, D5, and F5. The notation includes a long chord in the first measure, followed by a series of eighth notes in the second measure, and a final chord in the fourth measure. A 'P.M.' (Palm Mute) instruction is indicated in the second measure. The guitar tablature below the staff shows fret numbers: 2, 0, 0, 0, 5, 3, 7, 5, 10, 8.

Second system of musical notation for Riff 5, measures 5-8. The staff shows a treble clef, key signature of one sharp (F#), and a 4/4 time signature. Chord symbols above the staff are E5, C5, D5, F5, and G5*. The notation includes a long chord in the first measure, followed by a series of eighth notes in the second measure, and a final chord in the eighth measure. A 'P.M.' (Palm Mute) instruction is indicated in the second measure. The guitar tablature below the staff shows fret numbers: 9, 7, 0, 0, 0, 5, 3, 7, 5, 10, 8, 12, 10.

Third system of musical notation for Riff 5, measures 9-12. The staff shows a treble clef, key signature of one sharp (F#), and a 4/4 time signature. Chord symbols above the staff are D5, B5, C#5, F#5, and E5*. The notation includes a long chord in the first measure, followed by a series of eighth notes in the second measure, and a final chord in the eighth measure. A 'P.M.' (Palm Mute) instruction is indicated in the second measure. The guitar tablature below the staff shows fret numbers: 7, 5, 4, 2, 6, 4, 4, 2, 2, 0, 12, 12. A bracket labeled 'At Solo only' spans the last two measures.

In this riff be sure to keep your timing steady after holding the long chords. The muted notes should be short and percussive and played with a rigid, rhythmic feel. The last bar of the riff is only used during the guitar solo section.

SAD BUT TRUE

In 1991 Metallica released the album *Metallica* which, within four years, became the biggest selling Heavy Metal album of all time.

'Sad But True' is the second track on the album and invokes a feeling of dark resignation with its epic guitar textures and slight eastern influence.

Although the playing on this track is heavy in the extreme, there should be no hint of clumsiness in the playing of the riffs. Aim for a liquid-like fluidity on the single line licks and keep to a strict tempo throughout.

Tuning: ① = E ④ = D
 ② = B ⑤ = G
 ③ = G ⑥ = D

Riff 1

 **TRACK 30**

1. A♭5 3 tr

2. A♭sus2

It is important to note the tuning of the guitar for this song; you'll see that both bottom strings are detuned by a tone, this will lead to some unfamiliar chord shapes but allows you to play power chords with a simple barre as in bars 1 and 2 of the first riff.

Between bars 3 and 4 you'll need to shift positions so that your first finger is at the first fret for the trill in the fourth bar. Play the last bar by damping all the strings with your left hand. The sound should be heavy and distorted but with enough attack to get the most from the deadened chords in the 2/4 bar.

TAB notation is provided for each system.

The fingering for this riff is more difficult - after the initial open chord use your third and first fingers to play barres on the bottom two strings (for the E♭5 and C5 chords). The D5 is played with a first finger

barre. The second bar is similar except for the open G5 instead of D5. Watch out for the triplet rhythm in bar 4 - this doubles the vocal line so listen to the original recording if you need help.

Tab notation (TAB) is provided for each system, showing fret numbers and bar lines.

This riff is similar to Riff 1 for the first few bars then leads into a harmony guitar part. Use your second

finger to play the down slides in bars 5 and 6, this frees up your first finger to play the following note.

Riff 2d

TRACK 38

Chord progressions: D5, [C], D5.

P.M. (Pickup) is indicated for the first, third, and fifth measures of the first system, and the first, third, and fifth measures of the second system.

Tab notation (TAB) is provided for each system, showing fret numbers and bar lines.

Riff 2d is similar to Riff 2a although it ends with a different phrase.

Riff 6

TRACK 39

Chord progression: G5, A^b5, F5, A^b5, G5, A^b5, F5, A^b5, G5

P.M. (Palm Mute) is indicated for the first four measures.

TAB notation shows fret numbers (0, 1, 5) and a 3-finger barre (3) for the A^b5 and F5 chords.

Although this riff is similar to Riff 4 the position and fingerings are different. After playing the A^b5 chord you'll need to make a quick position shift to play the F5 with your first and third fingers, then back to a first finger barre for another A^b5.

Riff 7

TRACK 40

Chord progression: D5, [C], B

P.M. (Palm Mute) is indicated for the first two measures.

TAB notation shows fret numbers (0, 2, 3, 5) and a 3-finger barre (3) for the D5 and [C] chords. The B chord is shown with a 5-finger barre (5) and a 1/2 note duration.

For the first two bars use the same fingering as in Riff 2d. The rest of the riff is similar to Riff 2a so again refer to the fingering used there.

"On this album ('Metallica'), I thought out my solos a lot more than I have in the past. I'd listen to the song and instead of sitting down with the guitar I'd sing out ideas into my tape recorder. I thought a lot about what direction I wanted to take with the solos."

ENTER SANDMAN

Words & Music by James Hetfield, Lars Ulrich & Kirk Hammett

© Copyright 1991 Creeping Death Music, USA.
PolyGram Music Publishing Limited, 47 British Grove, London W4.
All Rights Reserved. International Copyright Secured.

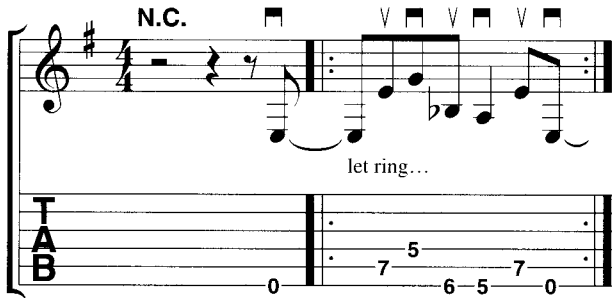

'Enter Sandman' is the opening track on the massive-selling 1991 album *Metallica*.

After a gentle but ominous introduction, this track builds to a stomping metal beat. With this solid, steady pulse behind you, getting the most out of these riffs shouldn't prove too difficult; but don't fall into the trap of speeding up.

The menacing nature of the guitar riffs nicely supports the lyrics which are mainly concerned with childhood nightmares and fear of the dark.

Riff 1

 **TRACK 44**

The opening arpeggio figure of this song is played with the fourth finger at the seventh fret holding the E note and the third finger holding the G note. This leaves the second and first fingers free to play the B $\flat$ and A. Let all the notes ring and use the neck pickup with a clean tone and chorus.

Riff 2

 **TRACK 45**

The intro uses three similar riffs which expand into Riff 5a. This riff is played with a heavy, distorted tone using the bridge pickup. Use downstrokes for the whole riff using your third finger to slide up to the E note.

Riff 3

 **TRACK 46**

Again, use your third finger for the slide followed by your second for the B $\flat$. Apart from the B $\flat$ you can play all of this riff with downstrokes.

Riff 4

TRACK 47

This riff is similar to Riff 3; use your second then first fingers for the B $\flat$ and A. As with the other riffs keep the muted notes short and percussive.

Riff 5a

TRACK 48

This is the main riff for the intro, also used in different forms throughout the song. Keep the same basic fingering as for Riff 4 – in the last bar use the first and third fingers to play the power chords and alternate them with open strings. Use heavy palm-muting for this bar.

Riff 6

TRACK 49

This is the main verse riff. The first two bars are straightforward, using only E5 and F5 chords. Bar 4 is the same as the end of Riff 5a, but is altered slightly on the repeat leading into the next section.

The image shows a musical score for the song "The Wind" by The Beatles. The score is written for guitar and bass. The guitar part is in the treble clef, and the bass part is in the bass clef. The key signature is two sharps (D major), and the time signature is 4/4. The score is divided into measures by vertical bar lines. The guitar part includes a melodic line with various note values and rests. The bass part is marked "TAB" and includes fret numbers. The score is divided into measures by vertical bar lines. The guitar part includes a solo section marked "Solo" and a section marked "Solo" with a "4" above it. The bass line is marked "TAB" and includes fret numbers.

The image displays a musical score for the song "The Sound of Silence" by Simon & Garfunkel. It includes a guitar part (top) and a bass part (bottom), both in E5 tuning. The guitar part features a complex melodic line with triplets and bends, while the bass part provides a steady, rhythmic accompaniment using a "w/bar" (walk with bar) technique. The score is written in 4/4 time and includes a key signature of one sharp (F#).

Guitar Part (Top):

- Staff 1 (Melody):** Starts with a treble clef and a key signature of one sharp (F#). The melody begins with a triplet of eighth notes (E5, F#5, G5) followed by a series of eighth and sixteenth notes, including bends (marked with 'V').
- Staff 2 (TAB):** Corresponds to the guitar staff. It shows fret numbers: 10-8-7, 9, 9-7, 9, 9-7, 5-7, 9, 5, 7, 5-7, 4, and 0.

Bass Part (Bottom):

- Staff 3 (Melody):** Starts with a treble clef and a key signature of one sharp (F#). The melody consists of a series of eighth notes, mostly on the E5 string, with bends (marked with 'V' and 1/2). A "w/bar" (walk with bar) instruction is present.
- Staff 4 (TAB):** Corresponds to the bass staff. It shows fret numbers: 2, 2, 2, 2, 2, 2, 2, 2, 2, 2, 2, 2, and 2.

This short lead section follows on from the guitar solo and leads into the bridge section. Start the pull-offs with your fourth finger then use your third finger for the next two. Play the slide in bar two with your

third finger. The trem-bar dips in bars four and five are played by lightly bouncing your picking hand on the bar.

Riff 7b

N.C.

The musical notation for the N.C. section consists of two staves. The top staff is in treble clef with a key signature of one sharp (F#) and a 4/4 time signature. It begins with a whole rest, followed by a quarter rest, then a quarter note G4, a quarter note A4, a quarter note B4, and a quarter note C5. This is followed by a double bar line and a repeat sign. After the repeat sign, there are four measures: the first has a quarter note G4, a quarter note A4, and a quarter note B4; the second has a quarter note C5, a quarter note B4, and a quarter note A4; the third has a quarter note G4, a quarter note F#4, and a quarter note E4; the fourth has a quarter note D4, a quarter note C4, and a quarter note B3. The bottom staff is a guitar TAB line. It starts with a double bar line, then a measure with a whole note on the 2nd fret, followed by a measure with a whole note on the 4th fret, then a measure with a whole note on the 3rd fret, then a measure with a whole note on the 4th fret, and finally a measure with a whole note on the 2nd fret. The TAB line ends with a double bar line.

This riff is the same as Riff 1 transposed up to F#.

'Fade To Black' from Metallica's second album *Ride The Lightning*, is nearly seven minutes long but is packed with musical ideas to sustain interest.

Episodic in form, the contrasting use of acoustic and distorted electric guitars keeps the song moving along until a tempo change just before four minutes changes everything up a gear.

With a minute and a half long outro, this song provides a great opportunity for you to experiment with your solo guitar style.

Don't hold back!

Riff 1

**TRACK 60**

The musical notation for the guitar solo is presented in two staves. The top staff is in treble clef, key of D major (two sharps), and 4/4 time. It contains a melodic line with eighth and quarter notes. Above the staff, the chords Bm6, Bm6/A, Bm6, and A/C# are indicated for the four measures. Below the staff, the instruction "let ring..." is written. The bottom staff is a guitar tablature (TAB) corresponding to the melody, with fret numbers (0, 2, 4, 5) written on the lines.

The intro of this song is played fingerstyle on an acoustic guitar but can also be played on a clean toned electric, with or without a pick.

Use your first and third fingers to play the B and F# and your fourth finger to play the D. Let all the notes ring.

Riff 2

**TRACK 61**

The musical notation for the guitar solo is presented in two systems. The top system shows the melody in standard musical notation on a treble clef staff, with a key signature of one sharp (F#) and a 4/4 time signature. The melody is divided into three measures, each with a chord symbol above it: F6, E/G#, and E7/B. The bottom system shows the corresponding guitar tablature, with fret numbers (0-4) written on the strings. The tablature is divided into two measures, each with a chord symbol above it: F6 and E7/B.

This riff is more difficult than Riff 1 – again, use your first and third fingers to play the first two notes then use a third and first finger barre to play the second

chord. For the next bar hold down the shape of an open E chord.

Riff 3

Am C G

TAB

0 1 2 0 1 0 1 0 3 3

0 2 0 3 0 0 0 2 0 0 1/3 2/4

0 2 0 3 0 0 0 2 0 0 1/3 2/4

Although the chord shapes in this riff are familiar you'll need to practise holding the top C note of Am over onto the C chord in bar 2 and the B note over into bar 3 while playing the new chord beneath it.

The fingering is straightforward and follows the standard open chord patterns. In bar four, play the double stops with your first and second fingers.

"When things become very obvious, we kinda step away from it. And it just became really obvious to us that we'd had enough of this progressive stuff, all this 'ten riffs in each song' stuff. And it's a lot of fun playing simple songs, it really is."

Lars Ulrich

Riff 4

TRACK 63

Sheet music for Riff 4, featuring guitar notation and tablature. The riff is in 4/4 time and consists of three measures. The first measure is marked E5, the second A5, and the third C5. The notation includes palm-muted notes (P.M.) and a 'cont. sim.' marking. The tablature shows fingerings and fret numbers.

Measure 1: E5. Notes: E5 (quarter), E5 (quarter), E5 (quarter), E5 (quarter). Tab: 2 0, 2 0, 2 0, 2 0.

Measure 2: A5. Notes: A5 (quarter), A5 (quarter), A5 (quarter), A5 (quarter). Tab: 2 2, 2 2, 2 2, 0 0.

Measure 3: C5. Notes: C5 (quarter), C5 (quarter), C5 (quarter), C5 (quarter). Tab: 5 5, 5 5, 5 5, 0 0.

You need a heavy, distorted sound for this chorus riff. Use downstrokes as much as you can and keep the palm-muted notes as damped as possible.

The staccato marked chords in bar 4 should be played very short.

Riff 5

TRACK 64

Sheet music for Riff 5, featuring guitar notation and tablature. The riff is in 4/4 time and consists of two measures. The first measure is marked D5 and E5*, and the second D5. The notation includes palm-muted notes (P.M.) and a 'cont. sim.' marking. The tablature shows fingerings and fret numbers.

Measure 1: D5, E5*. Notes: D5 (quarter), E5* (quarter), D5 (quarter), E5* (quarter). Tab: 7 9, 7 9, 7 9, 7 9.

Measure 2: D5. Notes: D5 (quarter), D5 (quarter), D5 (quarter), D5 (quarter). Tab: 7 7, 7 7, 7 7, 9 9.

Make sure that the chords don't ring over the rests – these are important to the feel of the riff.

For the palm-muted passage, use the picking pattern marked and keep the notes short.

Riff 6

TRACK 65

TAB: 0 0 0 0 9 9 12 11 7 7 9 9 0 0 0 0 5 9 9

This riff combines the chords of Riff 5 with palm-muted bottom Es. Use downstrokes for the low string and chords and alternate for the last two bars.

Riff 7

TRACK 66

Chords: B5, A5 (cont. sim.)

P.M. (Palm Mute) is indicated for the first two measures of the first system and the last two measures of the second system.

G5* A5

TAB: 2 4 2 0 4 2 0 2 0 4 2 0 0 4 2 0 0 4 2 0 2

This riff is used in the outro section as part of a harmony guitar part. On the CD this part can be heard in the right channel. Use the picking pattern

marked and note that it is not all downstoked – this will give the riff a more melodic feel (in contrast to the rhythmic feel of the previous riffs).
